Spectronics Corporation

**Leading the way since 1955,
setting the new standard in NDT
inspection lamps.**

NDT plays a crucial role in everyday life. We are proud to manufacture the highest quality standard and high-intensity compliant inspection lamps and digital meters for use in liquid penetrant and magnetic particle NDT.

Meeting the New Standard in NDT:

Many of the Spectroline® brand products in this catalog are specifically engineered to meet ASTM E3022-18 and EN ISO:3059 standards. Additionally, we have developed many of our lamps to meet the strict requirements for RRES 90061 (Rolls-Royce), and to meet the regulations for safety in the Aerospace sector. Spectroline® remains at the forefront of developing safe NDT products for MPI and LPI around the world.

Global Leaders:

Our products are utilized for hundreds of markets and applications that demand uncompromising quality and reliability. Spectroline® lamps and radiometers are widely used by technicians in the field around the globe – including the military and aerospace sectors, as well as transportation, oil and gas, mining, fabrication, NDT inspection shops, alternative energy, and more.

PROUD MEMBERS OF:

uVision™ 365 SERIES

Compliant, IP Rated, Fanless LED UV-A Lamps

The uVision™ 365 SERIES is Spectroline's innovative line of compact, broad-beam NDT handheld lamps. These lightweight yet rugged lamps boast an IP65 rating – they are dust-tight and water resistant. Using a state-of-the-art heat sink design, the uVision™ is mechanically cooled without the need for a fan. In addition to three powerful UV-A (365 nm) LEDs, it has a convenient white light LED for illuminating work areas. Compliant versions have embedded microprocessors to keep lamps within specifications.

QUADRAN™ 365 S-SERIES

Powerful NDT LED UV-A Inspection Lamps

QUADRAN™ 365 S-SERIES lamps are versatile, broad-beam NDT inspection lamps that are handheld, or can be easily mounted in place for stationary in-line inspections. These lamps feature four powerful UV-A (365 nm) LEDs plus a convenient white light LED to quickly switch between fluorescent inspection and flaw location. For increased flexibility, a unique dual, high/low white light output control.

EDGE™ 13 SERIES

LED UV-A Panel Flood Lamps

Get an **EDGE** on your overhead inspections with our flood lamp series from Spectroline®, the **EDGE™ 13 SERIES**. Designed specifically for NDT professionals who require a reliable and rugged overhead UV-A LED lamp for large parts inspection, these **IP65** rated panel lamps are dust-tight and protected against jets of water from all angles. Expand coverage by connecting lamps together via gang ports. Fanless cooling means fewer headaches. The only overhead NDT lamp series that has all of these features and comes in a RRES-90061 model.

NEW!

EDGE™ 4

LED UV-A Overhead Wash Station Lamp

The **EDGE™ 4** is a flood lamp engineered specifically for wash stations. It provides a very wide area of coverage without a high intensity. The IP65-rated housing allows the lamp to work in wet and dirty environments. Heat sinks keep the lamp cool without the need for a fan, so no dust or water can enter. Four UV-A LEDs provide a wide, uniform beam that is highly consistent and reliable.

OPTI-LUX™ 365 SERIES

LED UV-A Inspection Flashlights

The **OPTI-LUX™ 365 SERIES** inspection flashlights feature a powerful UV-A (365 nm) LED light source coupled with a rugged anodized lamp body. They reduce user fatigue while providing an extremely uniform beam profile that surpasses those of more expensive lamps. Available in four models to suit your specific NDT needs: high-intensity or standard-intensity versions, each with or without an internal UV-A pass filter. Each lamp comes with a Certificate of Light Output for both wavelength and output measurements.

TRITAN™ 450 SERIES

LED Blue Light Handheld Inspection Lamps

The **TRITAN™ 450 SERIES** features three cool-running, ultra-high flux blue light (450 nm) LEDs with a broad-beam configuration. This powerful lamp provides a wider coverage area than conventional inspection lamps, while its compact head design allows access to areas inaccessible to larger inspection lamps. Ideal for most nondestructive testing applications, including use in some ambient light conditions.

TRI-450MB

OPTIMAX™ 450

Rechargeable LED Blue Light Flashlight

The **OPTIMAX™ 450** is a versatile, cordless inspection lamp, featuring a high-intensity blue light (450 nm) LED. The anodized aluminum lamp body minimizes corrosion and stands up to years of heavy use, and our patented, thin-film dichroic lens filters out long-wave visible light. Electronic Intensity Stabilizer assures consistent performance. Beam strength will not weaken between charges. Powered by a rechargeable NiMH battery. Provides 90 minutes of continuous inspection between charges.

MAXIMA™ 3500 SERIES

Ultra-High-intensity UV-A Lamps

These super-powerful **MAXIMA™ 3500 SERIES** lamps make NDT inspections easy. They feature micro discharge light (MDL) technology with a fatigue-free ergonomic design. Deliver up to 10 times the UV-A output of conventional HID inspection lamps. They have a lightweight, solid-state ballast and integral bulb/reflector assembly. Stay-cool, impact-resistant and dent-proof housing. Prefocused at the factory.

COMES WITH PATENTED **BULB-SAVER™**

Keeps bulb upright in housing and maintains alignment through usage, increasing longevity.

AccuPRO™ SERIES

Digital Radiometer/Photometers

The **AccuPRO™ XP-2000** readout unit features a single dual-wavelength sensor detector designed to measure both ultraviolet and visible light, and is compliant with ASTM 2297. The **AccuPRO™ Plus XP-4000** features a single 3-in-1 multi-purpose sensor that measures ultraviolet, visible, and blue light.

KEY FEATURES:

- ▶ Overall accuracy greater than $\pm 5\%$ per NIST standards
- ▶ Superior band-pass interference filter provides excellent cosine response
- ▶ One-touch PEAK with reset functions
- ▶ User-defined power save and automatic shutoff
- ▶ Multi-wavelength sensor directly attached to meter by 3 ft (0.9 m) cord
- ▶ Convenient on-board recharging
- ▶ Powered by four rechargeable “AAA” nickel-metal hydride batteries (included)
- ▶ Comes complete with AC charger and padded carrying case

3-in-1 Sensor (UV-A/VIS/Blue)
 Sensitive to UV, Visible and Blue Light

Conforms to
CEN/TR 16638

Wavelength/Measurement Range
 UV-A (365 nm) Irradiance 0-100 mW/cm²
 Visible (555 nm) Illuminance 0-5,382 Lux (0-500 fc)
 Blue (450 nm) 0-100 mW/cm²

The **AccuPRO™** meter features a dual wavelength UV/visible sensor, while the **AccuPRO™ Plus** (shown) features a 3-in-1 sensor that measures UV, visible and blue light.

AccuMAX™

Advanced Digital Radiometer/Photometer Kit

The MOST advanced, microprocessor-controlled readout system. The **AccuMAX™ XRP-3000** is compact, lightweight, and battery-operated for convenient use in the factory, field or any other location where measurements need to be taken. Measures both ultraviolet and visible light. Complies with ASTM specifications for MPI and FPI and the ASTM 2297 standard. Specially engineered for NDT applications.

Direct Connect

USB Cable Connect

DUAL-WAVELENGTH SENSOR
Sealed with water-resistant housing

LARGE LCD SCREEN
4-digit autoranging display

PROTECTIVE RUBBER HOUSING
Rugged meter for better grip and to help prevent accidental breakage

KEY FEATURES:

- ▶ Microprocessor-controlled readout unit with dual-wavelength sensor detector
- ▶ Superior bandpass interference filter
- ▶ Choice of direct or USB connection between sensor detector and readout unit
- ▶ Excellent cosine response
- ▶ Sealed sensor housing and USB connection with water-resistant adapter

MULTILINGUAL – now includes more languages. User-selectable, multilingual display settings at any operational level. Choose from English, French, German, and Spanish.

AccuMAX™ XS-555/L Luminance Sensor Detector

The perfect accessory for the AccuMAX meter. Ideal for technicians performing radiographic examinations. Meets ASTM E1742 standard.

The AccuMAX XS-555/L luminance sensor detector measures the brightness of a visible light source and, unlike many competitive units, allows the user the choice of displaying the results in three distinct units of measure: candelas per square meter (cd/m^2), candelas per square foot (cd/ft^2) and footlamberts (fL).

Dimensions

Height 3.2 in (8.1 cm)
 Length 3.0 in (7.6 cm)
 Width 2.1 in (5.3 cm)
 Weight 6.4 oz (181 g)

Luminance Range

0 - 1,000,000 cd/m^2
 0 - 90,000 cd/ft^2
 0 - 285,000 fL

Technical Features

Readout Unit (XR-1000)

Resolution	4-digit autoranging display
Screen	128 x 64 dot pixel chip on glass STN transmissive monochrome LCD 2.25 in (5.7 cm) diagonal illuminated (backlit)

Read Update	2 Hz
Overall Accuracy	Better than $\pm 5\%$ with reference to NIST standards
Temperature Coefficient	$\pm 0.025\%/^{\circ}\text{C}$ (0 to 50°C)
Power Requirements	Two non-rechargeable 9V alkaline battery cells are included as standard

Dimensions

Length	7.75 in (19.7 cm)
Width	4.25 in (10.8 cm)
Thickness	1.25 in (3.2 cm)
Weight	0.8 lb (360 g)

Dual UV-A/Visible Sensor Detector (XDS-1000)

Irradiance Range

UV-A Sensor	0-100 mW/cm^2 (0-100,000 $\mu\text{W}/\text{cm}^2$)
Visible Sensor	0-5,300 lux (0-500 fc)

Spectral Range

UV-A Sensor	320-400 nm
Visible Sensor	460-675 nm

Dimensions

Length	4.75 in (12.1 cm)
Width	2.0 in (5.1 cm)
Thickness	7/8 in (2.2 cm)
Weight	0.22 lb (100 g)
USB Cable (Length)	5 ft (1.5 m)

XRP-3000 Kit Includes:

- Water-resistant USB cable with adapter XCB-100
- Rubber boot XRB-100
- Carrying case XCC-100

Sample Certificates of Conformance & Validation Reports

Our NDT inspection lamps come with unique Certificates of Conformance and Validation Reports, so end-users know that their lamps meet industry requirements and standards.

Intensity readings are taken with a Spectroline® AccuMAX™ Series meter, and is factory set to the value shown.

We stay one step ahead of **industry trends** and **technological innovation** to ensure you get the most rugged, comfortable, compliant lamps available today.

EN ISO:3059 + Wavelength Compliance
Certificates of Light Output provided with each individual lamp with unique product serial number. These certify LED wavelength requirements and output measurements for each lamp at the factory.

ISO 9001:2015

Compliance with the new ISO standard reinforces the confidence that customers have in Spectronics Corporation's commitment to quality, not only in the present but also in the future.

Warranty

All equipment is warranted against defects in manufacture. Spectronics Corporation's obligation under this warranty is limited to repairing or replacing, at the option of Spectronics Corporation, any part(s) of the product which, if properly installed, used and maintained, proves upon factory examination to have been defective in materials or workmanship within 12 months from the date of delivery to the customer, including LEDs and BLE-LED bulb.

This warranty does not apply to any component which (1) is normally consumed in operation or (2) has a normal life inherently shorter than the warranty stated. For example, bulb, filters and rechargeable batteries are warranted for 30 days; the 100S/M-PQL bulb is warranted for 90 days. In addition, Spectronics Corporation does not warrant any instrument that has been subjected to misuse, negligence or accident, or has been repaired or altered by anyone other than Spectronics Corporation.

This warranty is in place of all other warranties of quality. There are no other warranties either oral, written, express, implied or statutory. **IMPLIED WARRANTIES OF FITNESS FOR PURPOSE AND MERCHANTABILITY ARE EXCLUDED.** This warranty and your remedies thereunder are solely as stated in this form. In no event shall Spectronics Corporation be liable for special, indirect, incidental or consequential damages, nor for any damages arising out of delay in shipment or production.

Company Background

Since 1955, Spectronics Corporation has been **the industry leader of inventing and manufacturing fluorescent dyes and materials**. More than six decades since its inception, the goal of Spectronics is still the same — to produce effective, top-quality products that are on the cutting edge of today’s technology with the utmost dedication to customer satisfaction.

Our NDT product line is no exception. We have worked alongside NDT experts, engineers, product designers, and standards committee members to carefully develop our compliant lamps to meet the highest standards.
